CARLA BABADOPULOS

WEB DEVELOPER

PERSONAL STATEMENT

A highly motivated frontend developer eager to learn all about web development.

Started studying web development by itself in 2015 on MOOCs websites with focus in frontend.

Became enthusiastic about ReactJS after completing a 5 weeks Full Stack Development bootcamp with Codaisseur.

After that started working with ReactJS Native (iOS and Android) together with Flux and Flow, completing 7 months of working experience in this area.

WORK EXPERIENCE

Pimmr B.V
Software Enginner, *July 2016 – Present*

Developing the frontend of the Pimmr app with ReactJS Native (iOS/Android app) and Flux. Pimmr is a Machine Learning app that gives you personalized restaurant recommendations, based on your preferences and restaurants you've been to.

Codaisseur
Full Stack Web Development Trainee, *April 2016 – Present*

The program consists of two years traineeship starting with an intensive five-week coding bootcamp involving frontend and backend techniques. Followed by two years of tutoring by Codaisseur teachers and advanced classes once a month to learn new subjects.
A few of the subject matters addressed at the bootcamp:
- HTML, CSS
- Terminal Essentials
- Git(hub)
- Frontend Javascript with jQuery, React.js
- Backend Javascript with NodeJS, NPM

Office Architecture & Art, Arch. Fernanda C. Borges
Intern, *2012–2013*

Performing projects datails and drawing executive projects. Representation in Autocad, Sketchup and rendering with V-Ray. Active participation in projects of Residential Architecture, Interior Desing and Landscaping.
